Ch → Image Restoration

- **Image Restoration** :- Image Restoration is the process of enhancing or improving the quality of an image with the help of a photo editor software.
- **Image Degradation** :- Image degradation is the act of loss of quality of an image due to different reasons. In event of Image degradation an image gets blurry and loses its quality to much extent.

X Image Degradation / Restoration

Process :-

- ↳ The degradation process for an image uses a degradation function together with an additive noise term.
- ↳ This operates on an input image $f(x, y)$ to produce a degraded image $g(x, y)$
- ↳ Given $g(x, y)$, some knowledge of the degradation function H , some knowledge about the additive noise term $n(x, y)$.
- ↳ The degraded image is given in the spatial domain by
