Category:Malaysian writersQ: Cannot access members of a class that is inside of a pointer I have three classes and as of now, the main class contains an array of pointers to another class(I'm not sure if this is the correct way to do it). I am unable to access the members of the class that are inside of the pointers as they are out of scope. I can get the values to print to the screen, but all of the members are 0. Any help would be much appreciated.

```
class bad { int counter; public: int print_cell(int i, int j); }; int bad::print_cell(int i, int j) { cout
```

nude mice. A study of the effect of  
tamoxifen, a non-steroidal anti-estrogen  
on the estrogen-induced growth of  
endometrial carcinomas was carried  
out. Tamoxifen was administered daily

right inguinal mammary fat pad of the nude mice. The mice were given 0, 10, 20, or 40 mg tamoxifen/kg body weight in an oil-in-water suspension for 30 days. Tumor growth was measured three times per week. Tamoxifen at 20 and 40 mg/kg suppressed tumor growth dose-dependently. Tamoxifen, an anti-estrogen, suppressed the growth of endometrial cancer in nude mice. Raise \$50k by July - jsatok ===== jsatok If anyone has ba244e880a
