A: I think it's the official website of PayDay 2 or perhaps the mod description for Lower Shadows: The unofficial mods are out and in here we've got some of the must-haves that will make your experience much, much better. Lower Shadows, the ultimate mod that takes Payday 2 to a whole new level of badass. Lower Shadow takes your world from vibrant, colorful and alive, to dark, dirty, blood soaked and packed with weapons and ammo. Weeks of adjustment gave this mod new level of realism, giving the game a darker, darker feel, the world is raw, painful and full of tension that gives the game a whole new edge to it. You can just imagine a dark night with Payday 2, where thunder sounds like a giant gun and the cracks of it gives you a chill down your spine. Lower Shadows also brings new mechanics and affects to the game, like the new blindfiring mechanic. VATS, freeze em, and more
