[mods] Set the mod to "trainer 25". Set the trainer to "max payne 3 pc game trainer 35". AiDUE_Trainer.zip. Aduer_Trainer. Add-ons. Check for updates. Edit values. Edit the nbt. [engines] Set the engine to chopper. Set the trainer to chopper. Random. Engine 6. Engine 7. Engine 8. Engine 9. Engine 10. i saw this video: and this is from a different source How to install: Download trainer and extracting it. Open trainer folder. Open downloaded file and run it, it will ask you what engine you have and what trainer you want to use, if not override them (open a trainer folder in the program and load the trainer from trainer folder). When done, you should have the trainer black box that contains: "File Descr." and "Name". Close the black box. Open the Mod folder. Copy and paste trainer file (which you will have created) into the trainer folder. If you don't have trainer file, then create it. Start the trainer and have fun :D This trainer is compatible with all the PC versions of the game. The trainer can be used with these mods: [trainer 25] [trainer 30] [trainer 35] [trainer 38] [trainer 40] [trainer 30]. [trainer 35]. [trainer 38]. [trainer 40]. [trainer 50]. [trainer 50].
