With the pcon planner high-voltage substation & pcon planner. the pcon planner pro 6.7. the pcon planner pro 6.7 72. pcon planner pro 6.7 72) was designed to provide the.. pcon planner pro 6.7 72. 72) was designed to provide the complete solution for planning. Learn more about its features, benefits and costs.Q: Fazer o switch funcionar em uma linguagem de programação Tenho um caso de teste que preciso desenvolver. O programa precisa fazer uma entrada do usuário e aparecer uma notificação em tempo real dependendo do que o usuário digite. Primeiro ponto: O usuário está em um ambiente em que não é possível recorrer a nenhum sistema de janelas e nenhum processador é configurado para informar por sinalizações/ouvir sinalizações. Segundo ponto: Preciso fazer a programação de forma a que a entrada do usuário seja direcionada à uma seção específica, e de acordo com a informação que o usuário digite, então fazendo uso de um switch só posso fazer o que é possível fazer usando isso e preciso saber como faço esse efeito. Existe alguma forma de fazer um programa executar uma determinada tarefa (caso estejam presentes tarefas específicas) de acordo com o que o usuário digitar? A: Seu problema não é fazer o usuário digitar "OK", mas sim fazer algo em tempo real ou em tempo leto dependendo do que o usuário
