They were saying that because of the problems they were having with the power trading group they would be interested in applying for a job in your group. Sheila did not want to discourage the move because she thought that it could be good for them to go into the power group so she encouraged them to apply. I will contact them and see what they think. Thanks!

right in front of one of the walls in the back of the home. In the background, you can see Mickey Hart and the rest of the band members getting ready to play that night at the Greek Theater. What you don't see, until now, is a plaque that reads, "Been there, done that." What do you
