Simply say farewell to the Windows Key problem, broken pointing and mouse jumping to other monitors! Aawesome! Useful and intuitive interface Flawless: Highly recommended 15 of 15 people found the following review helpful Great! September 19, 2014 By Rob - Published on Amazon.com Format: USB Device I have 2 monitors, and my mouse tends to jump from one monitor to the other on occasion. This is not the first mouse I've had, so I knew the issue was more that it just wasn't designed to work well with multiple monitors. I was able to easily install this application, and it works like a dream. I highly recommend this software. 1 of 1 people found the following review helpful Mouse problem. September 13, 2014 By Jon - Published on Amazon.com Format: USB Device Love the free mouse pointer that will keep the mouse from jumping off to another monitor when you move the mouse to a side edge of the monitor. No mouse problem anymore. You can change the number of monitors. 1 of 1 people found the following review helpful Poor Mouse/Mouse pad... November 6, 2013 By Totally Software - Published on Amazon.com Format: Software Downloaded this app for the mouse pointer and it worked great for the few days i used it. Then i tried to move the mouse to the edge of the monitor, this happens on the left side. But when i turn the mouse pad to the right it works just fine. So i have to use the mouse pad to the right or i cant use this app at all. Its a shame, it was
