## Skyrim Lolicon Mod [VERIFIED]

April 12, 2012 - You guys probably know about the loli race for Skyrim called Monli v2 (link) . He has a CBBE body for the base, but there was a mistake - all weapons ... were not available. (Well, not all, it's not an RPG, right?) You can find it in the Skyrim Launcher under Mods. It's not that weird, really. Actually, it's not strange if you don't know about the error. Monli v2 is one of the most popular mods for Skyrim, and it's not because it's perfect. Yes, he is very cute, but he is not perfect. And you should know why. Monli v2 is a mod that fixes CBBE/UNP body bugs. Its a pretty simple goal, but it's very important.
