What's New In?

Import an existing attribute or master: Link an attribute from one drawing to another drawing and then see it populate automatically when you open the linked drawing. (video: 1:10 min.) Master content from your drawing: An Attribute Object can be connected to a master and retain its properties. It can be used to manage masters, such as setting their border color. It can also be used as an Attribute Object for importing the master's attributes to a drawing. (video: 1:07 min.) Master Multiple Objects: Multiple masters can be connected to an Attribute Object, and the Attribute Object can be used to set properties of the masters. You can now customize multiple masters in the same way. (video: 1:22 min.) Master an attribute: An Attribute Object can be used to set properties of a master, and the master can be used in other drawings and be recognized as the master. (video: 1:34 min.) Advanced Export: Export your drawings in 4K for ultra-sharp, high-resolution images. (video: 1:36 min.) Printing: AutoCAD can now print multiple pages from a PDF file. You can create a PDF, add multiple pages to it, and print the pages you want to display. You can also create a ZIP archive of the PDF. (video: 1:38 min.) Joint-Free Drawing Creation: Redesign your drawings with the new Joint-Free Drawing Creation feature. Create drawings that maintain the visual integrity of each segment, without any troublesome, unsupported segments. You can now reorder segments and interlock segments, making the connection as easy as possible. (video: 1:38 min.) Direct Edit: Drag objects directly into a drawing. If you want to move the object into the same location, hold Ctrl while dragging. (video: 1:40 min.) Rotate a Rectangle or Polygon 90, 180, or 270 degrees: Holding Shift while rotating a Rectangle or Polygon in a Direct Edit window creates a polyline. It can be manipulated, and it can be moved to a new location. (video: 1:40 min.) Collapse or Expand a Geometry: You can collapse or expand any element, such as a polyline, circle,
