What's New In HP MediaSmart SlingPlayer Software?

The HP MediaSmart SlingPlayer Software enables you to watch and control basic cable with wide-ranging functionality and ease, all from the screen of your notebook/laptop. HP MediaSmart SlingPlayer Software provides access to your choice of cable channels and functions, like local weather and news updates, without having to miss what's on your favorite channel. What's on?* you can watch and listen to on your television screen, using your notebook/laptop (as long as it's connected to the television with a cable) plus listen to the live audio content on a connected portable media device (MP3 player, thumb drive, etc.) Start with a channel list* that allows you to browse and select an available channel. Watch and listen to live content* from your favorite channel in multiple ways, including by voice commands (for example, 'Watch ESPN'), channel guide (to select by channel), and content guide (for content specific searches). Enjoy the convenience of cable right on your notebook/laptop screen. Contents: Folder Contents: Contents: 1. (A) HP SlingPlayer Installer 1. (B) About HP SlingPlayer Software 2. (C) Read me first 3.
