What's New in the Cash Register Express?

Cash Register Express is the #1 time saving POS for mobile and desktop systems. Saves you time and money by letting you input all your inventory & sales info in one database, then output to a printable summary for your checkbook or to a spreadsheet to post on your website. Easily upload your inventory and sales data from Excel, Word, and other programs. Set up unlimited SKUs and locations, then tell CRX to print receipts and add specific coupons, events, & promotions. Easily track inventory and sales with an inventory tracking feature. All you need to do is hit print. With CRX you can make your mobile sales data even easier to manage, by adding mobile POS features to CRX. Simply export from CRX to a CSV file, then upload to your Mobile POS. Create new receipts and save them as templates for your next sale, and easily add a special code on the back of each receipt to create event, coupon, or promotion codes. With CRX's mobile features, you can print a receipt at the POS or upload directly to your website. CRX is super easy to use and can be setup in less than 30 minutes. Cash Register Express Features:

- Cross-Platform - No need to worry about system incompatibilities, you can run CRX on iOS, Mac, Windows, Android, Blackberry, and more. Simply import from Excel or file and start selling!
- Print out Receipts - Easily print receipts for sales or use them as coupons to offer customers discounts on future sales. CRX has built-in printing features for all sales made using the application.
- Spreadsheets - CRX provides a single location for all of your inventory data and sales information. All transactions are kept within a single database which makes it easy to monitor inventory, manage sales, and generate inventory reports. Use CRX's built in reports to calculate daily profit margins, and generate detailed reports of your inventory and sales.
- Inventory Tracking - Use a single database to track inventory. Choose which items to count and which to ignore.
- Multi-SKU - Add unlimited SKUs and add them to any price group. With CRX you can scan up to 100 bar codes per transaction.
- Mobile POS - Easily upload from CRX to a mobile POS. CRX's mobile functions make managing inventory and sales on the road much easier. CRX's mobile POS

includes the ability to add events, coupons, and promotions. Simply export from CRX to a CSV file and upload to your mobile POS. • Manage Transactions - Easily create and track items sold, coupons applied, promotions created, and attendance and timelapse data. • Quickly Ring Up Sales - A new customer interface for you salespeople. Easily input sales data at the POS. • Quickly Ring Up Sales - Sales can be quickly recorded in the transaction history by adding the barcode of the sale item
