Browsers. (.Q: Is there a way to find the version of an installed node module? I'm working on an application that uses node and i can't figure out how to find the version of modules installed on my machine using the command line.

A: I didn't find any way to do this in node, but I was able to find this tool after seeing an example of how to do it in Powershell. It allows you to do the same thing you would do on Windows. I haven't tried it out myself, but this seems to be a pretty clean way of doing it. Check out the link to see

how to use it on Linux. Q: How do I parse this Type? I have a Type like this: `Type myType = Type.GetType("AssemblyName, AssemblyName, Version=1.1.0.0, Culture=neutral, PublicKeyToken=null");` I would like to know the default type of all variables to be assigned to that Type. So for example: `int var1 = myType; // this should be int.` `String var2 = myType; // this should be string.` Is there a way to perform this operation? A: You can use the Type object's members to get the types of the generic arguments. For example, `string s1 = myType.GetGenericArguments()[0];` .
