Yummy Crack + [Mac/Win]

Hey, just wanna share a tiny invisible web application called "Yummy Cracked Accounts" for my friends to get their avatars from facebook, which will be hopefully can be a fun and interactive experience for us. So, right now it has 5 features:- 1. Upload profile pic (also users can take a profile pic from their ipad, iphone or any other devices) 2. Search name by smiley 3. Search name by a number 4. Multi messenger 5. Save avatars from specific profile Nah, it's still not finished yet as I'm updating it as fast as I can :D Emailer is free, simple, easy to use and FREE version includes about 9 million emails, lets you to send up to 500 messages per day. Emailer Description: Emailer is a little HTML based mail utility. It shows all your emails in a nice list, like your preferred mail program. If you are looking for a free emailer, either to be integrated in your website or standalone, this is the app for you. TweetGetter is to retrieve real time tweets based on your search query and display them in a nice little dashboard TweetGetter Description: TweetGetter is a twitter monitor that picks up recent tweets. It notifies you automatically when a new tweet is posted containing your search keyword. You can search for almost all your search key words and display up to 30 tweets in a nice dashboard. What makes TweetGetter different from other twitter monitors, besides the obvious fact that it picks up tweets and gives you some historical information about the search keyword and its related keywords? The main difference is that it does not require you to be an twitter addict. Since it shows you a nice user friendly dashboard where you can search for your search key words. You get the recent data, and get to view history of tweets. The app for super casual fans of social networks, e.g., Facebook, Twitter, etc. This app enables you to post items to your Facebook and Twitter accounts without creating or logging into a separate account. It also lets you post links to the respective accounts. If you're a fan of WordsWithFriends, you'll love the Reversi. You play against a friend, a computer or both, and you'll challenge the difficulty by playing in turns, against time, or for the high score. Wordplay is a useful tool for helping you learn new words. It simply
