**Patreon Must Be Destroyed Sims 4**

---

and if you still want to download some cc from the sims 4 websites mods folder while still under 18, then there is no rule saying you cant, as long as you arent directly trading information about anyone or anyone else that has provided a mod to you or threatened to publicly post any cc created by anyone else. as stated above if anything you or others are doing is seen as inherently and specifically threatening the privacy of any character, or people in general it will and will be dealt with appropriately. this being the case, imma put out a few more things to consider: first, anything listed as a "paid" mod / cc creator on their patreon page is most likely paid content. not unlike the base game, most things should be released for free. in these cases however, if you do want to test the content and later on purchase the file, it will be free of charge within 2 or 3 days after the payment has been placed on your patreon account. it takes that long before the creator has to download and release the content, but they have to, given that theyre making money of it. so it is a viable option to throw money at content creators and actually get the content after youve ponied up. or you could just pay once for all the content you want and gain access to the content for the rest of your life. also, youre free to download any content listed as a "free" mod / cc creator, whether that be a.package file or a.ts4script file. you will be able to browse the content youre interested in and download the mod or script. the creator will also be notified that youre downloading their content and can post any specifics of the file, just so you can be aware of what youre downloading. the creator can in fact prevent you from downloading their content if they wish to. this is ultimately their choice to do so.

### **Patreon Must Be Destroyed Sims 4**

8. if you do not agree to any portion of the tou or this agreement, do not install or use the software. you agree that in the event you do not agree to any portion of the tou or this agreement, you will not install or use the software.

the mods are pretty easy to find and download from 4shared or the hosting site they download to. just click the download and it should download the zip file to the mac or pc you use. just unzip the zip file and follow the instructions when done. you can also find all the patreon free content right in the sims 4 official sim center after you login! (if your using maxis sites i would suggest clicking the link they have posted because they will have their own patreon free items) patreon has been experiencing a rough time with reports of paypal refusing to process payments, and even mods not working correctly. even ea is recommending that those who come across issues to either switch to a different payment processor. i came across a few creators that did and they had great reports of people using paypal for their patreon. just click the picture of the creator you want then go to the patreon link and see if they have paypal or bitpay on their site. as you can see these are the best and most stable sites to make payments through and can be used on the pc and mac! dont forget to keep your receipt in case you need to contact your bank and request a refund. if you run into any issues or have trouble with patreon free content or any creator please leave a comment with the content name or creator so its easy for me or another i can refer to for any future patreon free items, and ill update this post, i can even link to the creator. i can even put a wiki on this post. the creators im posting about are the ones who have both paid and patreon free content because i believe that its

---

important for people to know that even if they are not paying they should still be able to enjoy those creators creations. 5ec8ef588b
